

Fast track delivery

Raccortubi Group solutions at Tube 2018

Deliveries in 4 weeks for special items? Raccortubi Group will soon be presenting its fast delivery solutions at Tube 2018 in Düsseldorf.

When dealing with Raccortubi Group, you can count on the long-term expertise of engineers and technicians who, by mixing passion with

the Far East was received for duplex manifolds to be delivered by airfreight within 4 weeks from placing the order.

While the Technical Department at

Duplex F51 with 11 double extruded outlets each, up to 55mm thick and 20 metres long.

Of course, the Group's well-established relationships with valuable suppliers were extremely beneficial in guaranteeing the almost immediate provision of raw material as the first essential step of an efficient supply chain.

This is just one example of the reason why Raccortubi is proud of a business model that enables it to be so flexible. It delivers products coming from its own manufacturing mills, many of them from its own stock and made with the internal availability of raw material, with a precise and efficient production planning thanks to which the Group is able to face many last-minute requests.

Raccortubi will be showing all its manufacturing and supply solutions at Tube, April 16-20, in Düsseldorf. Raccortubi Group has been manufacturing, stocking and supplying piping materials for critical applications such as chemical and petrochemical plants, power plants, shipyards, fertilizer plants and offshore platforms through its global distribution network since 1949. It provides pipes, tubes, butt weld fittings and flanges in austenitic stainless steel, duplex, super duplex, 6Mo, nickel alloys and titanium from stocks at distribution points in Italy, Brazil, Dubai, Singapore and the United Kingdom, being constantly replenished by the internal manufacturing of butt weld fittings at the two production mills Tecnox and Petrol Raccord.

Raccortubi Group will be exhibiting at Tube in hall 3, stand D02.

knowledge, can find unexpected solutions to the most urgent requests - even when special products are concerned, in a very short time. In addition, the extensive availability of raw material in sheets and plates in duplex, super duplex and 6Mo up to 50mm, and in titanium up to 15mm, allows for deliveries in 4-6 weeks thanks to a dedicated production line at Petrol Raccord called Fast Track.

A case history

An urgent request from a client in

Petrol Raccord promptly started the design of these tailor-made pieces with all the relevant calculations, the internal production was planned accordingly. Therefore, immediately after the customer's approval, such a tight delivery schedule could be met smoothly, thanks also to the in-house laboratory where the final quality tests could be carried out without constraints before shipment.

All these elements were fundamental in matching the demanding conditions of the contract for the supply of two manifolds 20" diameter in
