**Pipes** - both **seamless** and **welded** pipes from qualified EU and non-EU manufacturers. Tubes for heat exchangers cut-to-size. Available in a broad range of grades and sizes, our pipes ensure versatility and reliability for any critical application.

**Fittings** - We provide a comprehensive range of butt-weld fittings from ½" to 16", across various materials both from stock and from our **in-house manufacturing**, Techninox.

**Flanges** - **Vast selection** of flanges including socket, blind, and threaded types, in numerous diameters and thicknesses.

Raccortubi Group **prioritizes quality** from supplier selection to final product testing, ensuring full traceability and certification of raw materials. With rigorous in-house and external testing, we guarantee our products meet the highest standards.
